

The enernovum group of companies has been successfully active in the field of renewable energies for over 10 years. In addition to operating our own solar power plants in Italy, the main focus of the company's activities is on the development and construction of large-scale PV projects in Italy, where we have established a leading market position together with a partner:

The project development is fully coordinated by our team at the headquarters in Cologne, Germany, with the possibility for home office and remote work.

To strengthen our team we are looking for an employee with immediate effect

Project Management Renewable Energies international (m/f/d)

Job 2202

Your tasks:

- Project management in the field of renewable energies, focus on photovoltaics
- Independent creation of business cases
