

The enernovum Group has been successfully active in the field of renewable energies for more than 12 years. In addition to operating our own solar parks, the company's activities focus on the development and construction of large-scale photovoltaic projects in Europe, where we have established a leading market position.

The project development is fully coordinated from our headquarters in Cologne and in close cooperation with our colleagues in the respective countries on site, with the possibility for home office or remote work.

To strengthen our team we are immediately looking for a

Project Manager Renewable Energies (m/f/d)

Table 2306
